

PROJECT SUMMARY SHEET

Title	Technical Consultant for USD 210 million Bilabri Oilfield Facility
Client	Ecobank Development Corporation
Start Date	February 2012
End Date	April 2012
Job Number	KS1102001
Scope Highlights	<p>An independent assessment of the Reservoir Study, Development Plan and Economic Model prepared for the Bilabri Field on behalf of Ecobank Development Corporation.</p> <p>The review assessed the robustness of the reservoir description, development and management plans for the Bilabri Field, including cost estimates, execution plan, and overall economics. It identified project risks and recommends potential mitigations.</p> <p>The reviewers assessed in significant detail, the validity of the basic data acquired and analyzed, the modeling methodology and results, and field development planning assumptions in order to provide appropriate recommendations. The economic model provided was also reviewed and updated with technical inputs and fiscal assumptions. Additional scenarios and sensitivities were carried out to check the robustness of the project to variations in basic economic assumptions.</p>
